ART. 3

Requirements for Activation

The minimum number of enrolments necessary to activate the aforementioned Ph.D. courses must not be fewer than 3 – by “enrolments” we mean candidates that have successfully passed the admission exams and fulfilled all administrative procedures for enrolment in the Ph.D. course applied for.

The number of available grants may increase if external funding from other sources is provided, as long as such funding is made available by the deadline established in this announcement.

Failure on behalf of public or private institutions to comply with funding procedures will result in fewer available positions.

The number of available grants may increase if the MIUR approves ministerial projects even after the announcement deadline.

ART. 4

Requirements for Access

Candidates holding a Master-level Degree or other University Degree corresponding to criteria specified in DM – Ministerial Decree – 509/1999, or those holding a foreign Degree with certified equivalency, within the deadline of this selection announcement, may, with no limitations as to age or citizenship, apply to participate in the Ph.D. selection process.

Candidates holding a foreign Degree who have not as yet obtained certified equivalency required for the Ph.D. course they wish to apply for must include the following in their application:

- a copy of the Degree obtained with a transcript of the exams taken and an Italian translation provided by the applicant under his/her responsibility;
- any other documentation deemed useful in terms of admission (Diploma Supplement, declarations etc.) and necessary for the Examination Commission to evaluate the Degree as conforming to requirements.

The selection procedure is also open to:

Candidates scheduled to obtain their Master-level degree within 31st October 2015. If admission exams are held before the Degree is conferred, the candidate's admission shall be deemed as “subject to verification” (“con riserva”).

Candidates who have already obtained a Ph.D., although such candidates shall not be eligible for financial support or grants.

Candidates enrolled in their final year of medical specialization school (Scuola di Specializzazione) at the University of L'Aquila.

ART. 12 **Grants – Scholarships**

The grants available, indicated in the Ph.D. chart (art. 2) are assigned following comparative assessment and according to the ranking list drawn up by the Examination Commission.

In case of joint-winners the available scholarship shall be conferred on the basis of the candidates' economic situation in compliance with D.P.C.M. 9/4/2001 and successive amendments. A Ph.D. study grant amounts to €13,638.47 and subject to INPS (Social Security Service) contributions amounting to 30,72% in 2015, of which 10,24% is to be paid by the grant beneficiary.

From the second year of each Ph.D. course, in addition to the grant and according to financial resources, a research budget, not inferior to 10% of the total sum of the grant conferred, will also be available for research activity in Italy or abroad. If a Ph.D. student does not receive a positive evaluation or renounces the grant, the remaining sum shall remain within the institution and used accordingly for the same purpose.

Grants, and in particular those provided by external sources shall be assigned by the Board of Professors, candidates to whom grants are conferred must find out all the details and conditions regarding the grant before accepting.

Grants provided by “Fondo per il sostegno dei giovani e per favorire la mobilità degli student” D.M 198/03 shall be assigned by the Board of Professors to candidates who have chosen a research topic relevant to the disciplinary field indicated.

Grants last one year and are renewed on the condition that the Ph.D. student has completed all programmed activities for the course during the previous year.

A Ph.D. scholarship cannot be accumulated with other grants except for those provided by national or foreign institutions which are aimed at integrating the Ph.D. student's research activity with periods abroad.

If a scholarship is provided by external sources, both public and private, the sum shall be given to the Ph.D. student only when it is received by the University from the external source.

Candidates who have already benefited from other Ph.D. study grants in Italy (even if only for one year) are not eligible to receive another grant.
