- a) First or second tier university professors or Researchers already holding an open-ended contract or who have held such positions in the past either, even if terminated;
 - b) Individuals who have already held fixed-term research contracts as provided in Arts. 22 and 24 of Italian Law 240/2010 at the University of L'Aquila or at other Italian Universities, whether public, private or online, or bodies under paragraph 1 of Art. 22 of Italian Law 240/2010 for a period, in addition to the intended duration of the competition contract, exceeding a total of 12 years, even if not continuing. Maternity or sick leave as provided in the laws in force shall not be included in the duration of the aforementioned employment contracts;
 - c) Individuals not entitled to exercise civil and political rights;
 - d) Individuals who have been dismissed or relieved from office with a Public Administration for consistently poor performance or have been dismissed from a civil service job as provided in Art. 127, Letter d) of Presidential Decree 10/1/1957, No. 3.
 - e) Individuals who are married, or under condition of civil partnership or common-law marriage pursuant to Italian Law n. 76, 20 May 2016, or related, up to the fourth degree, to professors belonging to the recruiting Department including the Rector, General Director, any member of the Board of Trustees.
3. The contract outlined for this selection procedure (Art. 24, paragraph 3, letter b, Law 240/2010) cannot be accumulated with other research grants as per Italian Law 449/1997 Art. 51 and Italian Law 240/2010 Art. 22.
 4. Candidates are granted provisional admission, as the University Administration reserves the right to review applications and to exclude for just cause at any time until the end of the procedure. In this case a decree shall be issued by the Rector and the excluded candidate shall be notified by the Administration.

Art. 3 - Application Submission Procedure and Deadline

1. To participate in the selection, candidates must submit their application within **30 days from the day following publication of the announcement in the Gazzetta Ufficiale della Repubblica Italiana – 4° Serie speciale – Concorsi ed Esami**. The publication of the selection announcement is also posted in the University, Ministry and EU websites.
2. If the deadline should fall on a holiday, the following weekday shall be considered the deadline for submission.
3. The application for the selection procedure as well as qualifications, documents and publications are to be submitted telematically, on pain of exclusion, using the computer application available at <https://pica.cineca.it/univaq>. The computer application necessarily requires that the candidate has an e-mail account in order to register. Candidates must enter all data required to fill in application and attach all documents in .pdf format. The application form must be filled in all its parts according to the instructions given by the telematic procedure. **No other ways of presenting applications or documents for the**

procedure are allowed, except for the case described in Art. 5, paragraph 2 of this announcement.

Within the deadline for application the system allows to save a draft of the application. The date of telematic submission of the application shall be certified by a receipt sent automatically by the system. **After the deadline for submission the system shall no longer allow to access and send the electronic form.**

An identification number shall be assigned to each application which, along with the selection procedure code indicated in the computer application, shall be quoted in any further notice.

For any technical problems candidates may contact technical support at: univaq@cineca.it.

The application submission shall be perfected and concluded in the following ways:

- **By digital signature** using smart card, USB token or remote signature which allow the owner to sign general documents by means of a signature software or a Remote Signature web portal made available by the Auditor. Those who have a Digital Signature smart card or USB token shall verify that they are compatible with the Digital Signature system integrated in the system server. If so, the owner may sign the application directly in the system server (e.g. ConFirma);
 - **Those who do not have compatible digital signature devices and the Remote Digital Signature Owners** who may access a web portal for signing general documents shall save in their own PC the .pdf file generated by the system and, without modifying it, digitally sign it in CADES format. A .p7m file will be generated, which shall be uploaded again to the system. Any editing to the file before signing with the Digital Signature shall interfere with the automatic check of correspondence between the content of such a document and the original, and this will bring to the application exclusion;
 - **If none of the above-mentioned options can be used** candidates shall save in their own PC the .pdf file generated by the system and, without modifying it, print and sign it with full original signature in the last page of the printed document. A scanned .pdf copy of such a document shall be produced and the file thus obtained shall be uploaded to the system.
5. All applications are subject to verification, in any case the following shall be cause for exclusion:
- omission of signature, in accordance with laws and regulations;
 - not including a copy of a valid identification document.

Applications deemed as lacking the required elements specified in the selection announcement or not in compliance with what specified in this article shall be excluded by Rector's Decree and candidates shall be notified of the said exclusion by registered post with notice of receipt or by certified e-mail (PEC).

- c) A Curriculum Vitae listing their scientific and teaching activities, written in Italian and in English;
- d) A list of qualifications;
- e) A copy of qualifications (only for those which cannot be presented with a personal declaration of certification) complete with a certification of authenticity and certified Italian translation if written in a language other than English;
- f) A numbered list of publications;
- g) A list of the candidate's teaching experience indicating the University/Body, the period and the subject taught;
- h) Publications not exceeding the number indicated in the attachments to the present announcement;
- i) A copy of residency permit (non EU citizens).

All qualification certificates issued by Italian Public Administration Authorities must only be self-certified as pursuant to Italian Law 183/2011.

Non EU Citizens with a regular Italian residence permit may submit original or scanned copies of qualifications, authenticated or certified copies of the original.

Art. 5 - Publications

1. Publications presented must be submitted only in .pdf format in the dedicated section of the telematic procedure at <https://pica.cineca.it/univaq>.
2. **Each publication shall not exceed the limit of 30 megabyte.**

Those publications exceeding the limit of 30 megabyte shall be indicated in a numbered list to be entered in the online platform and uploaded in .pdf format to a digital medium (USB, CD, DVD) to be posted within the application deadline by registered mail, express post or package or service with notice of receipt to the following address: Settore Concorsi e Selezioni – Palazzo Camponeschi – Piazza Santa Margherita, 2 - 67100 L'Aquila. The date when the envelope was accepted by the post office or express service company shall be taken into consideration. Any applications whose publications (exceeding the 30 megabyte) shall be excluded that, though posted within the deadline under comma 1 of Article 3 of this selection announcement, do not arrive at the University Administration within the fifth day after the designated deadline. In the latter case the date of arrival at the University shall be taken into consideration. The University Administration declines all responsibility for any non-deliveries or misdeliveries of the publications, or other problems due to third parties, unforeseeable events or force majeure. The candidate must indicate on the envelope containing the publications: the University issuing the selection procedure, the requesting Department, the academic recruitment field, academic discipline, position being applied for, name, surname, mailing address for all selection procedure related notifications.

If the maximum number of publications indicated in Attachments 1 through 17 of this selection procedure is not observed, the system shall not allow to complete the application procedure.

Candidates cannot make references to other publications/documents presented previously to the University of L'Aquila or to any other administration/institution.

3. Once the selection procedure is completed, the selected candidate shall submit the publications presented, in original or in copy certified conform to the original.
4. Works published in Italy will be assessed if they comply with legal standards and are pursuant to Leg. Decree n. 660/1945 as amended by Italian Law 106/2004 and Presidential Decree n. 252/2006. This requires certification to be provided with the application or a personal declaration pursuant to Presidential Decree n. 445/2000; for works published abroad the date and place of publication must be indicated.
5. Publications written in a foreign language must be accompanied by a certified Italian translation by official translator or consulate/embassy. The translation process is not required for publications written in French, English, German and Spanish.

Art. 6 - Renouncing Participation

Candidates wishing to renounce participation in the selection procedure are required to write to the Rector to declare their intentions, including in their letter a photocopy of a valid identity document, to the following address: Settore Concorsi e Selezioni – Palazzo Camponeschi – Piazza Santa Margherita, 2 - 67100 L'Aquila, e-mail: conc@strutture.univaq.it. Their renouncement shall be made official during the first meeting following receipt of renouncement.

Art. 7 - Nomination of the Examining Board

1. The Board, made up of three members of which at least two tenured professors and two from other universities, named by the Department and connected with the academic recruitment field or the academic discipline concerning the position object of the public selection procedure, is appointed by a Rector's Decree. One member must be chosen among high profile experts from a university or research center in another OECD country.

The designated professors must be registered in the lists of those members who can be called by drawing for the National Scientific Qualification Boards or anyhow they must satisfy the criteria provided for by ANVUR, resolution n. 132, 13 September 2016.

Unless documented reasons exist, at least one third of the board members is to be reserved to women.

2. The following cannot be nominated:
 - Professors who have received a negative assessment as provided in Art. 6, Paragraph 7 of Italian Law 240/2010;
 - Members of the University political board, those who hold a political office as well as representatives of trade unions or professional associations;
 - Individuals condemned for crimes – even if not yet sentenced – in Book II of the Italian Penal Code (“crimes by civil servants against public administration”);
3. The Rector's Decree appointing the Examining Board shall be published on the University's Albo Ufficiale and on the University website.

4. From the date the Rector's Decree nominating the examining board is published candidates have 10 days – in analogy with the University Regulations for appointing I and II Tier Professors - to state their opposition to any of the components of the board. After this period no instances may be presented.
5. The Board nominates a President and a Secretary.
6. The Board operates with the presence of all its members and takes decisions unanimously.
7. Participation in all Board activities is mandatory for all members.
8. The Board, after notifying the Head of the selection procedure and receiving authorization from the Rector, may hold meetings using telematic technology. At the end of the meeting the minutes must be drawn up, approved, and signed by the Secretary who has actually drawn them up. The other members of the Examining Board underwrite a statement in which they declare that they have joined the meeting and undersigned the minutes, and then forward them telematically to the competent administration office. Where applicable, reference has to be made to the University's Regulations (Rector's Decree n. 467/2016, April 18th, 2016).
9. Expenses incurred may be reimbursed in accordance with the University's Regulations pursuant to Art. 7, Paragraph 4 in reference to the recruitment of fixed-term Researchers.

Art. 8 - Role and Duties of the Examining Board

1. In the first session the Board, having determined that in compliance with related laws, no incompatibility factors are present, outlines the preliminary assessment criteria and procedures for selection in compliance with the parameters indicated in Ministerial Decree n. 243, 25 May 2011, and the criteria and specific functions to be carried out by the Researcher.
The Board also establishes an analytical system to confer points to candidates after preliminary assessment has been completed. The Board then establishes which candidates are admitted to the interview, together with the criteria for testing their English language skills, and Italian language skills for foreign applicants.
2. The Head of the selection procedure is immediately notified of the above-mentioned results which are to be published on the University's Albo Ufficiale and on the website for at least 7 days before the Board can move on to the next phase of the selection procedure.
3. The above mentioned preliminary procedure initially involves determining if the candidates possess the requisites for participation, then their CVs and publications, including their Ph.D. thesis, are assessed.
4. Following preliminary assessment, the Board will admit the most worthy candidates - 10 to 20 per cent of the original candidates – and no less than six in number - to participate in a public discussion of their qualifications and scientific work; all candidates shall be admitted to the discussion should their total number be equal to or less than six.
5. The list of candidates is drawn up by the Board and published on the University's Albo Ufficiale and on the website at least 10 days before the interview. **This is to be considered an official notification for candidates. Candidates are required**

to appear for their interviews on the indicated date with a valid identity document. It is important to remember that candidates are not notified individually but only through the above stated notifications published online. If the candidate does not show up, this shall be considered final renunciation to the selection procedure.

6. Following the interviews, the Board grades the candidate's qualifications, attributes a grade to each publication and assesses interview and foreign language skills. Once this has been completed the Board draws up a ranking of the candidates and deliberates (by majority) the winner of the selection procedure.
7. All proceedings are contained in the minutes of the meetings, including all the assessment results obtained during the preliminary meeting, grading of qualifications and publications, and interview to test English language skills. The results of all of the above are published on the University's Albo Ufficiale and on the website **which to all effects represents an official notification for the participants in the selection.**

Art. 9 - Time Limits of the Selection Procedure

The Board is to conclude all necessary actions within four months from the Rector's Decree nominating its members.

The Rector may extend the deadline only once and for no more than two months only in the case of exceptional and documented reasons brought forth by the President of the Board before the established deadline expires.

If all procedures are not concluded even within the extended deadline the Rector shall proceed to the substitution of the Board members, who become liable for the delays caused, establishing a new deadline for completion of the selection procedure.

Art. 10 - Determining Validity of Proceedings

Within thirty days after the proceedings are consigned, the Rector issues a Decree establishing their validity, which is published on the University's Albo Ufficiale and on the website. **This, to all effects, represents official notification** and from that date candidates have a period of time to file a complaint. The candidate selected shall also be notified.

The Decree is immediately passed on to the relevant Body in charge of the appointment, as pursuant to the following Art. 11.

If the Rector finds any irregularities in the proceedings he/she may make a motivated request to the Board to obtain rectification.

Art. 11 - Appointment by the Department

Within 60 days of the Rector's approval of the proceedings the Department Council that had requested the selection procedure must unanimously adhere to the decision and decide on a date to officially appoint the new Researcher, to this end the Council must keep in mind the time needed to stipulate the contract.

The Department's deliberation must also be approved by the University's Board of Directors, after which the Researcher is invited to present all necessary documents for contract stipulation within 30 days.

Art. 12 - Drawing-up of contract

A fixed-term (3 years) full-time employment contract shall be drawn up and underwritten by the Rector and by the Researcher.

During maternity leave the contract is put on hold and expiration date is postponed for a period equal to that of compulsory leave of absence.

All elements regarding fixed-term researcher contracts specified in Art. 10 of the University's Regulations must be indicated within said contract.

The number of hours required for teaching, integrated activities and services to the students is 350 hrs per year. Research activity is the subject of a specific scientific report to be submitted yearly to the Department's approval.

Given that the contract shall be pursuant to Leg. Decree n. 165/2001 Art. 53, it is important to state that it cannot be accumulated with other employment contracts, research grants, Ph.D. or Specialization courses, nor with any other earnings or grants from the University.

As regards the Researcher's duties the main duties established by law in reference to the category shall be applied. The University's Regulations as to assignment of teaching duties to professors and researchers (Rector's Decree n. 915-2017, 19 December 2017) will also be applied.

The Researcher appointed will be required to abide by the University's Code of Behaviour, not doing so shall lead to termination of contract. The Researcher shall also abide by norms regarding security, as established in Leg. Decree n. 81/2008 as amended and supplemented and also contact the Health and Safety Service Office of the University to gather information on prevention measures to abide by while carrying out research.

The position is subject to all laws regarding termination.

Art. 13 - Salary and Social Security Benefits

The gross annual salary for fixed-term, full-time researcher corresponds to € 58.070,41. The contract is subject to all social security and fiscal taxes.

Art. 14 - Documents for Contract Stipulation

The Researcher selected shall present all required documents together with all declarations certifying their requisites for appointment as pursuant to Presidential Decree 445/2000 art. 46 and 47 to the University's Settore Personale Docente e Ricercatori as specified in Art. 3, Paragraph 6, numbers 1, 2, 3, 4, 5, 8, 9, 10, 11, 12, 13 in this announcement. The Researcher shall also present a personal declaration of certification regarding their marital status, household members, whether they belong to legally protected categories, whether they receive a pension, whether they are members of professional registers; they must also declare that they are not employed in any other public or private company or institution as pursuant to Presidential Decree 445/2000, Art. 46 and 47.

If the Researcher is already employed by a public institution he/she must ask for a leave of absence from their job to accept the Researcher contract they have been selected for.

Before starting work the Researcher must undergo a medical check-up to obtain a certificate from the University doctor stating that their health allows them to carry out the job duties required, the Researcher can contact the Settore Personale Docente e Ricercatori to make an appointment with the doctor.

The University reserves the right to carry out sample checks to verify the information and certification presented.

Art. 15 - Personal Data

The handling of candidates' personal information is disciplined by Leg. Decree n. 196, 30 June, 2003 and UE Regulation n. 679/2016. Personal information supplied by the candidates in the application form shall be collected by the offices of the University and processed for the purposes of the procedure and for the management of relations ensuing therefrom.

The provision of said information is compulsory, on pain of exclusion.

Candidates are entitled to exercise the rights provided in the Legislative Decree mentioned above, including the right of access to the data concerning them, the right to amend, update, complete or delete erroneous or incomplete data or data collected in a manner that is contrary to law, and to object to processing for legitimate reasons.

Art. 16 - Disclosure

This decree is made available to the public on the University website (<http://www.univaq.it>), on the Ministry of Education, University and Research website, and on the European Union website.

Art. 17 - Reference to Implementation Modalities

For all matters not contained in this announcement, the resolutions, laws and regulations indicated in the introduction together with all laws regulating recruitment of University staff shall apply.

Art. 18 - Head of the Selection Procedure

Pursuant to Art. 5 of Italian Law n. 241, 7 August, 1990, Doriana Scarsella, Head of the Settore Concorsi e Selezione of the University of L'Aquila, is also head of this selection procedure.

Further scientific and teaching qualifications: The selected candidate will be required to have specific research and teaching skills in issues related to social and economic history of the south of Italy and the medieval Mediterranean area. Particular attention shall be paid to the real applicative value of the researches carried out by the candidate on issues concerning urban realities, production sectors, merchant classes and the dynamics of social, economic and cultural exchanges.

Assessment criteria: the Examining Board will assess the candidate's scientific publications and overall CV according to the following criteria:

- a) Originality, innovation, rigorous methodology and relevance of the publications submitted ;
- b) Analytic determination of the candidate's individual contribution in co-authored publications;
- c) consistency of the candidate's activity with the subjects included in the academic recruitment field object of the selection procedure with particular reference to the profile indicated by the Department;
- d) scientific relevance of editorial classification of the publications and their diffusion within the national and international scientific community;
- e) temporal continuity of scientific production also in relation to the evolution of knowledge in the specific academic field;
- f) consistency of the candidate's scientific profile with what required in the selection announcement in the outline of the scientific and teaching profile as well as in "Further scientific and teaching qualifications".

Academic Recruitment Field: 0/A1 – Archaeology

Academic Discipline: L-ANT/08 – Christian and Medieval Archaeology

Place of work: Department of Human Studies – DSU

Research activities: Research activities shall be carried out in the field of Christian and Medieval Archaeology with particular emphasis on the history of late antiquity and medieval settlements, on the archaeology of architecture, on the study of fortified sites and cemetery areas related to the settlements. Specific attention shall also be paid to Italian early medieval settlement dynamics through the study of the conquer of the heights, of the manorial system, of the early medieval and Norman fortification phenomenon with reference to the Appennines territories. The Researcher is expected to investigate such phenomena by means both of archaeological sources and philological reconstruction of historical events. A good knowledge of the most updated techniques of stratigraphic investigation as well as proved experience in managing multilayered archaeological excavations are among the skills required.

Teaching activities: Teaching activities shall be included in the range of courses already offered by the Department in the specific discipline in the Bachelor's Level Degrees and in the Master's Level Degrees. The selected candidate shall also be in charge of students' tutoring activities and guidance at the incoming. A specific integrated teaching activity shall also be supervising and tutoring students in their thesis work.

Teaching activities, integrated teaching activities and services to the students: The number of hours required for teaching activities, integrated activities and services to the students is 350 hrs, of which 60 of class teaching.

Assessment criteria: With due regard to criteria and parameters indicated in Ministerial Decree n. 243, 25 May 2011, the Examining Board shall assess the candidate considering the high quality of their scientific production and their teaching experience documented by:

- 1) consistency of the candidate's activity with the subjects included in the academic recruitment field object of the selection procedure with particular reference to the project of Excellence of the Department;
- 2) original and innovative scientific production as well as rigorous methodology and relevance of editorial classification of the publications;
- 3) teaching positions in Italian or foreign academic institutions in the fields relevant for the present selection procedure;
- 4) research positions in qualified Italian or foreign research Institutions;
- 5) participation in research groups with national and/or international connections
- 6) organization of, or participation as a speaker in, scientific conferences or seminars in Italy or abroad
- 7) participation in scientific committees of highly regarded journals or series;

Academic Recruitment Field: 09/E3 – Electronics

Academic Discipline: ING-INF/01 – Electronic Engineering

Place of work: Department of Industrial and Information Engineering and Economics
DIIIIE

Research activities: The Researcher shall carry out research activities in the field of Electronics, with particular emphasis on the issues related to the design of high and very high frequency circuits mainly for aerospace applications, for fixed and mobile telecommunications, and for imaging. The design shall deal especially with monolithic circuits based on both traditional technologies (III-V-type semiconductors) and innovative ones (SiGe-type semiconductors). He/she shall also deal with designing and implementing discrete card circuits mainly but not exclusively for high frequencies, regularly implemented in the Department as a support to research as well as teaching.

Teaching activities, integrated teaching activities and services to the students:

Teaching activities shall be carried out in the Bachelor's Level Degree in Industrial Engineering and in the Master's Level Degree in Electronic Engineering as well as in Ph.D. courses. The Researcher shall teach seminars, also in English, on particular subjects of interest of the Master's Level Degree students. He/she shall also be a member of examination and thesis discussion committees, hold students' hours, assist students in training and thesis work, participate in the orientation and tutoring activities of the Department, for a total amount of 350 hrs per year.

Maximum number of publications: 12 (twelve).

Academic Recruitment Field: 09/C1 – Fluid Machinery, Energy Systems and Power Generation

Academic Discipline: ING-IND/09 – – Energy Systems and Power Generation

Place of work: Department of Industrial and Information Engineering and Economics – DIIE

Research activities: The Researcher shall carry out research activities in the field of energy transformations and the interactions with the environment. In this field the Department is deeply involved in several national and international projects concerning: the technological evolution of internal combustion engines, CO₂ transcritical refrigerating systems, low temperature energy recovery for the conversion to mechanical energy, valorization of solar power for energy use, implementing instruments required by the EU related to Territorial Energy Planning. Research activities have both a theoretical and an experimental value. As far as the experimental activity is concerned, particularly important are the dynamic engine and the CO₂ transcritical refrigerating system testbeds.

Teaching activities, integrated teaching activities and services to the students:

Teaching activities shall be carried out within the Ph.D. courses for the so-called “ad hoc” Ph.D. students, the Master’s Level Degree courses in Mechanical Engineering, specifically the courses of Machine Dynamics and Control, Energy System and Machine Management (Industrial Engineering). Teaching activities shall support also the courses in Machines and Environment Interaction, and Territorial Energy Planning. The Researcher shall teach seminars, also in English, on particular subjects of interest of the Master’s Level Degree students such as non-stationary processes and non-conventional energy transformations. He/she shall also be a member of examination and thesis discussion committees, hold students’ hours, assist students in training and thesis work, participate in the orientation and tutoring activities of the Department, as well as supervise Ph.D. students in their dissertation work, for a total amount of 350 hrs per year.

Academic Recruitment Field: 09/D1 – Materials Science and Technology

Academic Discipline: ING-IND/22 – Materials Science and Technology

Place of work: Department of Industrial and Information Engineering and Economics – DIIE

Research activities: The Researcher shall carry out research activities in the field of ceramic materials with special emphasis on nanoparticle synthesis of metal hydroxides/oxides both at laboratory and at pilot scale with applications in the fields of Cultural Heritage, industrial and bio-medical engineering. Research activities shall focus particularly on the synthesis with innovative methodologies – also “green chemistry” approaches, the study of the characterization of the nanoparticles produced included their application to stone materials and mortars of particular historical-architectonic significance.

Teaching activities, integrated teaching activities and services to the students:

Teaching activities shall be carried out within the Bachelor's Level Degree in Industrial Engineering, in Environmental and Civil Engineering as well as in the single-cycle Degree in Construction-Architectural Engineering; the Researcher shall also teach seminars in the courses of Applied Chemistry and Science and Technology of Materials II, supervise thesis work in the Bachelor's Level Degree in Industrial Engineering and in the Master's Level Degree in Chemical Engineering. The Researcher shall teach seminars, also in English, on particular subjects of interest of the Master's Level Degree students. He/she shall also be a member of examination and thesis discussion committees, hold students' hours, assist students in training and thesis work, participate in the orientation and tutoring activities of the Department, for a total amount of 350 hrs per year.

Academic Recruitment Field: 01/A2 – Geometry and Algebra

Academic Discipline: MAT/02 – Algebra

Place of work: Department of Information Engineering, Computer Science and Mathematics – DISIM

Specific functions: The Researcher shall carry out and promote an intensive research activity in algebra, particularly as far as the group theory application to cryptography is concerned; he/she shall: carry out teaching activities in the courses of the Bachelor's Level Degree, Master's Level Degree, and Ph.D. related to the Academic Discipline MAT/02; organize within the Department internationally connected research groups; involve in research projects companies interested in cryptography; teach courses and seminar also in English; participate in the orientation and tutoring activities of the University.

Maximum number of publications: 12 (twelve).

Foreign language requisite: English

Assessment criteria:

With due regard to criteria and parameters indicated in Ministerial Decree n. 243, 25 May 2011, the Examining Board will consider the high quality of the candidate's scientific production, documented by publication in conference proceedings and journals of international reputation. Other qualifications such as National Scientific Qualification or analogous qualification in other EU countries, teaching positions in Italian or foreign academic institutions, positions held in national and international scientific institutions and laboratories, coordination of research projects involving private companies will also be considered.

Academic Recruitment Field: 01/A2 – Geometry and Algebra

Academic Discipline: MAT/03 – Geometry

Place of work: Department of Information Engineering, Computer Science and Mathematics – DISIM

Specific functions

Research activities: The Researcher shall carry out research activities in the field of differential geometry.

Teaching activities, integrated teaching activities and services to the students:

The Researcher shall carry out teaching activities in the courses of the Academic Discipline MAT/03 – Geometry. He/she shall also carry out the following: be a member of examination committees, assist students, participate in the orientation and tutoring activities, supervise thesis and Ph. D. dissertation work. The total number of hours required for teaching activities, integrated teaching activities and services to the students is 350 hrs per year, of which 60 hrs of class teaching.

Academic Recruitment Field: 08/F1 – Urban and Territorial Planning and Design

Academic Discipline: ICAR/20 – Urban and Regional Planning

Place of work: Department of Civil, Construction-Architectural and Environmental Engineering – DICEAA

Research activities: the Researcher shall carry out research activities in the field of Urban and Territorial Planning with particular emphasis on the following issues: (a) Control and sustainability of urban sprawl, (b) Analysis and environmental assessment techniques, (c) Geographic Information Systems, (d) Engineering of indicators, (e) Measurement of the settlement environmental interference.

The Researcher shall also be required to managing innovative and experimental technologies of data acquisition for spatial diagnosis.

Teaching activities, integrated teaching activities and services to the students: the Researcher shall carry out teaching activities in the courses of the Academic Discipline ICAR/20 – Urban and Regional Planning as well as in the courses of Geographic Information Systems of the degrees in Engineering and Management of Ecosystems. He/she shall also carry out the following: be a member of examination committees, assist students, participate in the orientation and tutoring activities, supervise thesis and Ph. D. dissertation work.

Teaching activities . The total number of hours required for teaching activities, integrated teaching activities and services to the students is 350 hrs per year, of which 60 hrs of class teachnig.

Total number of hours required for research, teaching, integrated activities and services to the students is 1.500 hrs. per year.

Maximum number of publications: 12 (twelve).
